

Mr John Brush
Secretary
Canberra Speleological Society Inc
PO BOX 156
CURTIN ACT 2605

Dear Mr Brush

Re. Protection of Dogleg Cave, Wee Jasper

In reference to your letter of 6 June 2008, I would like to advise that the Wee Jasper Reserves Trust agrees to your proposal to install a lockable gate in the Railway Tunnel/ Sand Trap area of Dogleg Cave at Wee Jasper.

As discussed on 28 April 2008 the lockable gate in the Sand Trap area is an interim management measure for Dogleg Cave, pending the development and implementation of a formal plan of management for the area. Please liaise with Steve Howarth, Manager, Wee Jasper Reserves (02) 6227 9626 regarding the logistics of the gate installation.

I'd like to take this opportunity to thank Canberra Speleological Society for their ongoing support of the caves and karst areas of Wee Jasper and to thank yourself, Dirk Stoffels and Andy Spate for your co-operation and patience in relation to the gating proposal.

Yours sincerely

<hardcopy signed>

Ray Mooney
Administrator
Wee Jasper Reserves Trust
